Introduction:

The pace of digital acceleration and the demand for core technical and professional skills continue to intensify. At IBM, we believe that learners at all stages of the employment continuum need access to the skills that will allow them to compete in an ever-evolving economy. IBM has been committed to closing the gap for students, job seekers, and the organizations that support them through our programs and platforms for decades.

BRIEF REPORT:

The programme had started with the felicitation of guest by Dr. Kavita Matere, Principal SMBT Institute of Nursing. Mr. Shekar Kadlag sir had explained regarding the IBM Skill build platform for the students. IBM Skill Build is a free education program that helps adult learners, high school and university students, and faculty develop valuable new skills and access career opportunities. The program includes an online platform complemented by customized practical learning experiences that aim to respond to learners' needs as they progress through their education and career journeys. This effort is in collaboration with a network of world-class education partners, including public high schools, non-profit organizations, governments, and corporations. Student had gained confidence and motivation after the session.
