

Report on Perspective of Nursing in Germany

Date: 10/04/2024

Speaker: Mr. Sagar Pathak

Audience: Fourth-year nursing students

Number of Students: 85 Students.

Brief Report:

The session aimed to provide students with an understanding of nursing practices, career opportunities, and advancements in Germany, emphasizing its relevance to international nursing standards.

Proceedings of the Session:

The lecture began with an introduction by the Dr. Kavita Matere , Principal, SMBT ION who highlighted the importance of understanding global nursing perspectives and encouraged students to explore international opportunities.

Mr. Sagar Pathak, an experienced speaker, delivered an insightful session focusing on:

1. Education Requirements for Nursing in Germany: Explanation of licensing, language proficiency (B1/B2 levels in German), and bridging programs.

2. Work Environment: Insights into hospital culture, patient care practices, and interdisciplinary teamwork.

3. Career Opportunities: Discussed demand for nurses in Germany, salary structures, and opportunities for professional growth.

4. Cultural Adaptation: Guidance on adjusting to Germany's work culture, ethics, and values.

5. Challenges and Solutions: Addressed potential obstacles, such as language barriers and work-life balance, with tips on overcoming them.

6. Student Engagement: The students actively participated in the session, raising pertinent questions about: Visa processes and documentation, Language training and preparatory resources, Opportunities for further studies and specialization. Mr. Pathak addressed each query comprehensively, encouraging students to consider Germany as a viable career destination. The Principal concluded the session by appreciating Mr. Pathak for his informative lecture and encouraged students to enhance their global competitiveness. The students found the session highly motivating and informative, with many expressing interest in exploring nursing opportunities in Germany. - Faculty members commended the relevance of the session to the current nursing curriculum and global career aspirations of students.
